

EasyAppsOnline.com Website Privacy Statement

1. ACKNOWLEDGMENT AND ACCEPTANCE OF TERMS

EasyAppsOnline is committed to protecting your privacy. This Privacy Statement sets forth our current privacy practices with regard to the information we collect when you or your computer interact with our website. By accessing EasyAppsOnline.com, you acknowledge and fully understand EasyAppsOnline's Privacy Statement and freely consent to the information collection and use practices described in this Website Privacy Statement.

2. PARTICIPATING MERCHANT POLICIES

Related services and offerings with links from this website, including vendor sites, have their own privacy statements that can be viewed by clicking on the corresponding links within each respective website. Online merchants and others who participate in EasyAppsOnline services are encouraged to participate in industry privacy initiatives and to take a responsible attitude towards consumer privacy. However, since we do not have direct control over the policies or practices of participating merchants and other third parties, we are not responsible for the privacy practices or contents of those sites. We recommend and encourage that you always review the privacy policies of merchants and other third parties before you provide any personal information or complete any transaction with such parties.

3. INFORMATION WE COLLECT AND HOW WE USE IT

EasyAppsOnline collects certain information from and about its users in these ways: directly from our Web Server logs and the user – NO COOKIES.

a. Web Server Logs.

When you visit our Website, we may track information to administer the site and analyze its usage. Examples of information we may track include:

- Your Internet protocol addresses (IP Address).
- The kind of browser or computer you use.
- Number of links you click within the site.
- State or country from which you accessed the site.
- Date and time of your visit.
- Pages you viewed on the site.

b. Communication via Email with our Carriers, Broker, and their Clients

EasyAppsOnline utilizes secure email (message) delivery when PI or PHI related documents are sent from our administrative, support, or technical staff. This provides secure communication with restrictions that greatly reduce the possibility of this data getting into the wrong hands.

b. Personal Information Users

Visitors to our website can enroll or pre-screen for medical insurance. When you logon, we will request some personal information such as name, address, email, telephone number or facsimile number, account number and other relevant information. You may also be asked to disclose personal information to us so that we can provide assistance and information to you. For example, such data may be warranted in order to provide online technical support and troubleshooting and/or completion of your medical insurance applications.

We will not disclose personally identifiable information we collect from you to third parties without your permission except to the extent necessary including:

- To fulfill your service requests for services – insurance enrollment ONLY.
- To protect ourselves from liability,
- To respond to legal process or comply with law, or
- In connection with a merger, acquisition, or liquidation of the company.

5. ACCESSING WEB ACCOUNT INFORMATION

We will provide you with the means to ensure that personally identifiable information in your web account file is correct and current. You may review this information by contacting your broker or insurance agent for a copy of your health insurance application.

6. CHANGES TO THIS STATEMENT

EasyAppsOnline has the discretion to occasionally update this privacy statement. When we do, we will also revise the “updated” date at the top of this Privacy page. We encourage you to periodically review this privacy statement to stay informed about how we are helping to protect the personal information we collect. Your continued use of the service constitutes your agreement to this privacy statement and any updates.

7. CONTACTING US

If you have questions regarding our Privacy Statement, its implementation, failure to adhere to this Privacy Statement and/or our general practices, please contact us pfrale@EasyAppsOnline.com or send your comments:

EasyAppsOnline Security Policy

EasyAppsOnline works with some of the best known names in internet security including; Sophos Security, and Qualys Security to protect your data. Below is a detailed listing of Security Policies EasyAppsOnline has implemented. Below Security Polices are HIPAA Compliant.

User Confirmation:

EasyAppsOnline logs multiple failed login attempts and responds by locking out intruding IP's from logging into EasyAppsOnline.

Username and Passwords:

All usernames and password have to follow strict guideline in order to restrict unlawful entry. All usernames have to be 8 characters in length. Password has to pass our Password Security Monitor and an account cannot be added until this Password Security Monitor is satisfied.

Two-Factor Authentication:

Two different factors are used in conjunction to authenticate. Using two factors as opposed to one factor delivers a higher level of authentication assurance.

Activity Monitoring:

All vital processes occurring on EasyAppsOnline are recorded to the EasyAppsOnline Activity report along with the IP address, date and time that those activities are completed.

Data Backup:

All data stored on the EasyAppsOnline server are backed up nightly and stored on encrypted media.

Hardware Protection:

The EasyAppsOnline server is protected by Cisco Hardware Firewall. All unnecessary ports are turned off.

Application Protection:

The EasyAppsOnline application is protected by an Application Firewall. This Application Firewall inspects all traffic coming and going into the EasyAppsOnline application for any malicious activity.

Isolated Database Server:

The EasyAppsOnline database server is isolated from the web application server making it invisible from the public network and much more secure.

Operating System:

The EasyAppsOnline server is updated daily with any necessary patches and updates.

EasyAppsOnline Mouse-Pad Signature:

All applications processed on EasyAppsOnline are digitally signed by the user using EasyAppsOnline Secure Mouse-Pad Signature. All Signatures processed on EasyAppsOnline are stored in a secure, protected server location.

EasyAppsOnline SSL Certificate

All communications between EasyAppsOnline server and EasyAppsOnline user are protected by a Secure Socket Layer (SSL) encryption. This SSL certificate encrypts data passing between the user and server during transmission.

EasyAppsOnline Support Procedures

All support and programming staff employed at EasyAppsOnline only access your data records at your request.

EasyAppsOnline Integrity

Yearly penetration and vulnerability testing are conducted by an independent security firm to ensure that no security weaknesses exist within the EasyAppsOnline server and software.
